\$500 will help fund this  
invaluable training.**

Why you should take the Training .....

## This Training is to Prepare you for Disaster Clean up work

### OSHA 10 is a prerequisite for this training

- (1) A flood in The Green River Valley is still a threat to our communities
- (2) We live between 2 active volcanoes and in an earthquake subduction zone
- (3) A lot of people are out of work... you have the time.
- (4) The training will make you better qualified to safely address the clean up work of a Disaster Site or to Volunteer to help out in your community.
- (5) It will look good on your resume when you are seeking work.
- (6) It will better prepare you to safely assist your co-workers, family, home and community in case of a Disaster

Morning Coffee with Homemade cookies and Lunch will be provided.

The Building Trades Disaster Response Project is an effort of the Sisters in the Building Trades, a non profit organization, to Train Construction Workers of All Trades, to help upright the world when "the Shit hits the Fan".
